

# GRAYSTONE

Four, and only four, home sites command a view of the Perche Creek from atop a wooded bluff at Graystone. Designed and developed by an engineer with a respect for the land's natural terrain, the five-acre Graystone sites were created for those who prize that rarest of combinations: a superb view with a convenient location.

In addition to its private sunset vistas and ample elbow room, Graystone also features recorded covenants to guarantee timeless value and appeal for homes like the one at left.

Other important neighborhood include:

- Private entry gate with remote operation.
- Minimum main level square footages of 3,600 for ranch homes and 3,000 for the main level of 1.5 or 2 story homes
- Stone veneer, dynamic rooflines and side entry garages prescribed by Covenants
- Paxton Keeley, Smithton, West Jr., & Hickman school districts

# Select. Secluded. Secure.

Five-acre Graystone home sites.

Lot 201 \$365,000

Lot 203 \$385,000

Lot 202 \$375,000
