

# GRAYSTONE

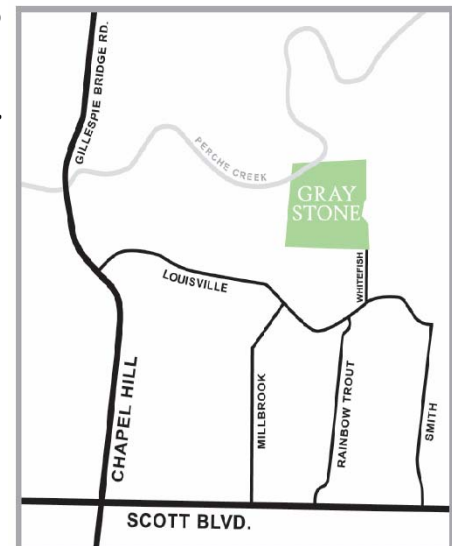

An enclave of four premium home sites on a wooded bluff above the Perche Creek is available at GRAYSTONE. Designed and developed by an engineer with a respect for the land's natural terrain, the five-acre GRAYSTONE sites were created for those who want the solitude and privacy of a country setting close to city destinations.

In addition to uncluttered sunset vistas and ample elbow room, GRAYSTONE also features recorded covenants to guarantee timeless value and appeal for investment minded owners.

Other important neighborhood details:

- Private entry gate with remote operation.
- A winding lane with no thru traffic.
- Stone accents, dynamic rooflines and side entry garages prescribed by Covenants
- Paxton Keeley, Smithton, West Jr., & Hickman school districts

# Select. Secluded. Secure.

Five-acre GRAYSTONE home sites.
